Summary

University student with a strong people focus and a habit of listening before offering solutions. Experienced in interviewing and supporting members of the community, including people who are blind or have low vision, and in explaining things simply and patiently. Leads a small team with consistently positive feedback on communication and support. Seeking a customer-facing role where everyone feels heard and looked after.

Education

Monash University | Bachelor of Computer Science, WAM: 73.8, GPA: 3.000

Jan. 2024 – June 2027

Experience

Operations Officer | Monash Assistive Technology Team

Feb. 2026 – Present

- Support the day-to-day operations of a student team delivering accessibility-focused projects.
- Collaborate with peers to ensure smooth execution of technical initiatives and internal processes.
- Contribute to the team's coordination, communication and internal workflows, helping new and existing members find what they need.

Projects Officer → Project Coordinator | Monash Assistive Technology Team

Mar. 2025 – Present

- Led a team building low-cost assistive technology for blind and low-vision users, keeping everyone supported, motivated and on track.
- Conducted user interviews and surveys to understand people's needs and recommend the right solutions.
- Explained technical ideas clearly to non-technical users, supervisors and stakeholders.
- Received more than 90% positive feedback from team members for effective leadership and communication.

Full-stack Engineering Intern | PlasmIT Vector

Jun. 2026 – Sep. 2026

- Took ownership of work across frontend, backend and database components, including implementation, testing and documentation.
- Learned modern tools and the software development lifecycle quickly, acting on feedback; supervisor described me as motivated, dependable and adaptable.

Volunteer – Open Day | Monash University

2 Aug. 2026

- Volunteered at the Monash Open Day event, assisting prospective students and visitors on the day.
- Welcomed and guided visitors, answering questions about the university in a friendly and approachable way.
- Worked alongside staff and other volunteers to keep the event running smoothly during a busy, high-traffic day.

Outreach Officer | Monash Assistive Technology Team

Feb. 2026 – Jul. 2026

- Aided in building partnerships with schools supporting students with disabilities, promoting technology-driven empowerment.
- Aided in communicating the team's mission to stakeholders and coordinating collaborative workshops and programs.
- Aided in maintaining ongoing relationships with school contacts between initiatives.
